

Skilled Graduate Recruitment Specialists.

As the competition for securing talent immensely grows, our specialist recruitment teams can help you secure skilled Engineering & Technology graduates that have the potential for long-term success.

Titan Recruitment has been delivering complete, innovative and effective recruitment solutions across Australia for over twenty years, and is recognised as a leading Engineering and Technology recruitment and contracting specialist. Our service delivery is underpinned by traditional values and an innovative approach to help clients, contractors and candidates achieve their goals.

Our graduate solutions help organisations source, screen and select candidates with the high potential and capacity to become your future leaders.

Our tailored graduate solutions.

With a deep understanding of behavioural assessment and volume recruitment, we apply that expertise to help you attract, assess and retain the most suitable candidates.

To find your future leaders, we use a thorough process from video interviews to assessment centres tailored to find what you're searching for. With a range of activities and exercises designed to gain insights and an evaluation of the candidate, your recruitment process is streamlined and the "best-of-the-best" applicants are rapidly identified.

In building your graduate recruitment process with us, you'll be able to choose from a fully designed, end-to-end experience or specific services that streamline how you conduct your hiring. With a single point of contact, your applicants will experience consistency throughout the entire process.

Our key values.

Our values are our guiding principles to ensure we deliver results that exceed expectations:

Integrity

Passion

Innovation

Knowledge

Solutions to support efficiencies and productivity.

We strive to make the process of hiring, onboarding and managing your graduate workforce more efficient and seamless.

By partnering with us, you can tap into Titan Recruitment's enormous wealth of commercial expertise, vast graduate networks and recruitment best practices to maximise opportunities that facilitate growth and drive business benefit.

Infrastructure Buildings Roads Rail Water

Mining Resources Energy Renewables

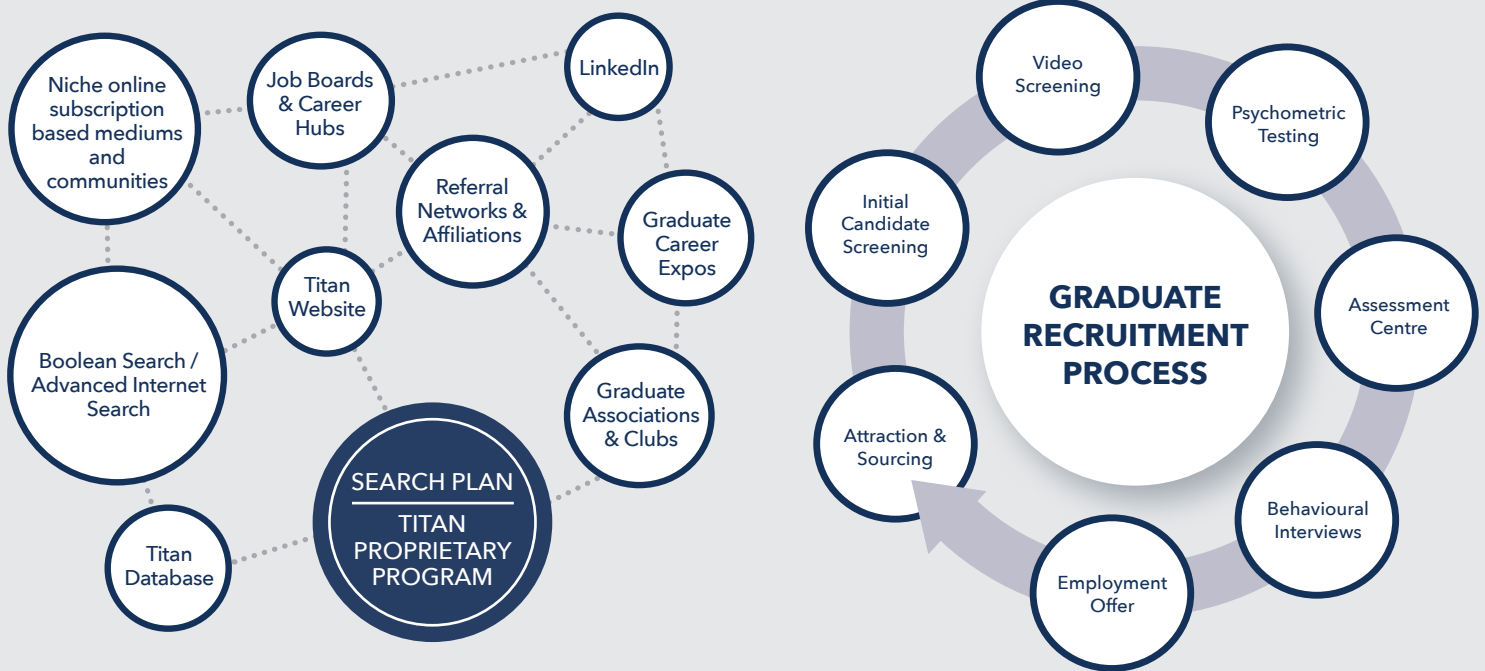

Information Technology Telecommunications

Operational Technology

It's how we do it that sets us apart.

Titan Recruitment prides itself on being innovative and resourceful in our graduate talent acquisition strategies. We customise the search to your specific requirements utilising advanced and systematic mapping techniques powered by our proprietary market map software.

In addition, we maintain a structured candidate communications plan with high-quality interactions that support a continuous level of engagement, ensuring a positive representation of your brand in the marketplace. Our focus on candidate care means we are armed with a pipeline of Titan-Ready graduate talent pools enabling rapid response to sourcing the people you need for your business and projects.

- Cyber Security Analyst

An example of our success.

“ The Titan Graduate recruitment process provides a robust and thorough client and candidate experience. The team at Titan partnered with our HR and operations teams to ensure we could attract the best talent across our national operations despite the changing COVID restrictions. They worked tirelessly and always tried to be helpful no matter the challenge. This year, we're proud to confirm a record of four new graduates joining our team. ”

Emanuele Dolfi
